FLAG STOP

In some areas on the Route 20 without established stops, you may request a "flag stop."

To make a flag stop, pick a place where the bus can safely stop and pull off the road. Buses will not stop on curves, after the crest of a hill, or other areas where sight distance is greatly limited.

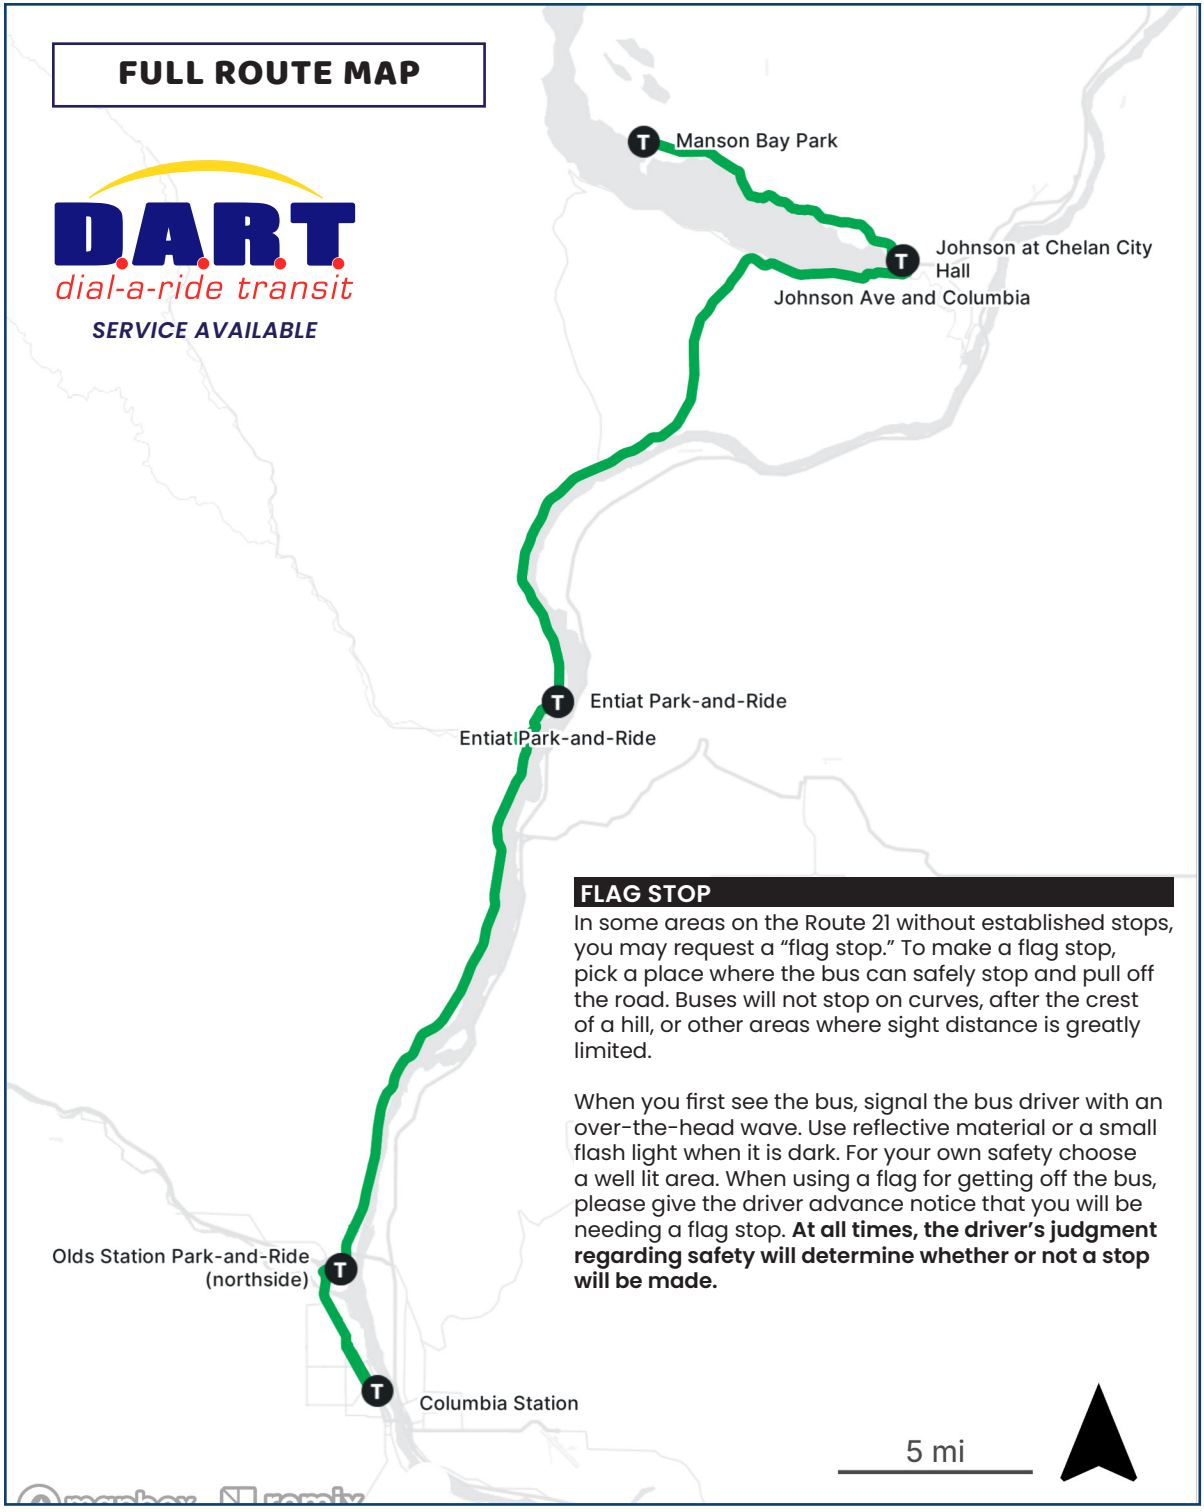

When you first see the bus, signal the bus driver with an over-the-head wave. Use reflective material or a small flash light when it is dark. For your own safety choose a well lit area. When using a flag for getting off the bus, please give the driver advance notice that you will be needing a flag stop.

At all times, the driver's judgment regarding safety will determine whether or not a stop will be made.

In some areas on the Route 24 without Established stops, you may request a "flag stop." To make a flag stop, pick a place where the bus can safely stop and pull off the road. Buses will not stop on curves, after the crest of a hill, or other areas where sight distance is greatly limited.

When you first see the bus, signal the bus driver with an over-the-head wave. Use reflective material or a small flash light when it is dark. For your own safety choose a well lit area. When using a flag for getting off the bus, please give the driver advance notice that you will be needing a flag stop.

At all times, the driver's judgment regarding safety will determine whether or not a stop will be made.
